

BUCKEYE LUBRICANTS #10-24 SEMI-SYNTHETIC COOLANT

Buckeye Lubricants #10-24 was developed to provide all-around performance on a wide range of machining & grinding applications. This product can be used on virtually ALL materials on ALL machines and is also recommended for Belt Grinders. #10-24 provides excellent performance on both ferrous and non-ferrous metals and has also proven effective on a variety of plastic materials.

#10-24 provides exceptional performance on **ALUMINUM** including the elimination of both staining on the parts, including exotic aerospace alloys, and pick-up of metal on the tools. Despite being an all-purpose product, #10-24 has provide excellent performance on a variety of exotic alloys, particularly in aircraft applications.

#10-24 is also suitable for most grinding operations. It's clarity enables the operator to see the work being done, while providing excellent finishes to the metal without loading the wheel.

#10-24 is a **LOW FOAMING** product making it suitable for most high turbulence applications. It is also non-gumming and has excellent corrosion resistance. In addition, this product keeps machines exceptionally clean and lasts for extended periods in the machine sump with minimal maintenance, making Buckeye #10-24 one of the **BEST ALL-AROUND COOLANTS** available ANYWHERE!!!

SAMPLES PROVIDED ON REQUEST
