

BUCKEYE LUBRICANTS 1129 TITAN LUBE HEAVY DUTY SWAGING COMPOUND

Buckeye Lubricants 1129 Titan Lube was developed to handle severe aerospace metal swaging applications on Titanium and other exotic metals. It is also suitable for heavy duty drawing, threading, beading, sawing, drilling and related operations.

Buckeye Lubricants 1129 Titan Lube is a viscous product that provides outstanding die life and part finish and it minimizes pick up on dies, tools, etc. It is applied “as is” and is typically applied using brush or swab methods. **Buckeye Lubricants 1129 Titan Lube** can be removed from parts using solvents or alkali cleaners.

Buckeye Lubricants 1129 Titan Lube is a non-contaminating, synthetic product that can be used on all metals and it has been approved for use in the aerospace industry. It is covered by Federal Service Code #R24837-8-3 dealing with the expansion of Titanium and other high strength tubing.
