

BUCKEYE LUBRICANTS #1973SP BLUE SPLINE ROLLING COOLANT

Buckeye Lubricants #**1973SP BLUE** was developed to provide premium performance on spline rolling applications. It is typically used at a dilution of 5 parts water to 1 part coolant and is suitable for almost any spline rolling application.

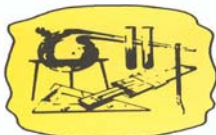

#**1973SP BLUE** prevents cracks on parts and eliminates the need to clean parts, which is necessary when using oils.

In addition, #**1973SP BLUE** contains no undesirable materials and is very mild making it very acceptable for operators.

SAMPLES PROVIDED ON REQUEST
