

BUCKEYE LUBRICANTS 6213 HF RUST PREVENTATIVE

Buckeye Lubricants 6213 HF is an outstanding water displacing and non-staining rust preventative which is effective for use on both ferrous and non-ferrous metals. It rapidly displaces water from metal surfaces after machining or grinding operations and also after alkali cleaning and leaves a thin, highly protective film.

Buckeye Lubricants 6213 HF provides good protection from atmospheric corrosion even under conditions of high humidity and can give indoor protection for 2 years. It is used “as is” or diluted with mineral spirits or oil and is removed using petroleum solvents.

Buckeye Lubricants 6213 HF passes Water Displacement and Stain Tests, as well as Humidity Cabinet tests for up over 60 days, both “as is” and when diluted up to 2.5 : 1 in Mineral Spirits

SAMPLES PROVIDED ON REQUEST
