

# BUCKEYE LUBRICANTS #776-24NF MACHINING & GRINDING COOLANT

**Buckeye Lubricants #776-24NF** has been formulated to provide superior performance on demanding machining & grinding operations. It offers excellent tool life and finish on difficult metals such as Inconel, Hastalloy and Stainless Steel while also providing excellent results on aluminum and other metals.

**#776-24NF** is a completely non-foaming product which makes it suitable for high pressure coolant systems as well as for high turbulence grinding applications such as double disk as well as grinding operations requiring increased lubricity such as centerless, ID and OD. It offers excellent corrosion protection, wheel life and blade life without loading the wheel.

**#776-24NF** is Bio-resistant so it provides extended life in the machine sump or central system without any offensive odors and it can readily be recycled to further extend use time.

*SAMPLES PROVIDED ON REQUEST*

Buckeye Lubricants #776-24NF is an exceptional Soluble Coolant that is suitable for virtually ALL machining & grinding operations!!
