

BUCKEYE LUBRICANTS VAN ROLL #4AD METAL FORMING COMPOUND

Buckeye Lubricants Van Roll #4AD was developed for metal forming applications where an absolute minimal amount of residue can be left on the part. It is formulated from a specialty blend of highly refined solvents that evaporate quickly leaving virtually no film on the part.

Buckeye Lubricants Van Roll #4AD provides excellent lubricity characteristics and is suitable for a wide range of applications including roll forming, punching, drawing and stamping, particularly where cleaning requirements must be minimal.

Buckeye Lubricants Van Roll #4AD

is a non-staining product, that can be used on all metals. It leaves NO oily film or alkaline residue to interfere with painting and typically no cleaning is required prior to painting.

It also eliminates roll pick up and offers excellent finish and die life on light to moderate duty applications
