

BUCKEYE LUBRICANTS TAP-STIK

Buckeye Lubricants TAP-STIK was developed as an environmentally safe tapping compound that has no adverse effects on the ozone layer. It is a solid polymer metalworking lubricant and contains no paraffin wax.

Buckeye Lubricants TAP-STIK can be used on all materials and unlike paraffin wax products it is easy to clean off.

Buckeye Lubricants TAP-STIK provides a solid film between the tool and work piece Preventing welding and pick up.

Although it was developed primarily for tapping operations, **Buckeye Lubricants TAP-STIK** can also be used on sawing, broaching, grinding, milling and trepanning.

FOR SAFETY THIS LUBRICANT MUST BE APPLIED TO STATIONARY TAPS AND TOOLS ONLY!!!!!!!

SAMPLES PROVIDED ON REQUEST

Buckeye Lubricants TAP-STIK is a SUPERIOR Solid Tapping & Machining Compound that is Suitable for use on a WIDE range of Applications !!
